EXPERIENCE

Learn Fusion

Full Stack Developer Intern

- Developed and deployed **end-to-end** web applications using modern frameworks and technologies like **HTML, CSS, JavaScript, Node.js, React**, and **MongoDB**.
- Designed and implemented **RESTful APIs** to enable seamless communication between the **frontend** and **backend** systems.
- Troubleshoot and resolved software bugs, contributing to increased application **stability** and **functionality**.
- Deployed web applications on cloud platforms, ensuring smooth and secure operation in a live environment.

EDUCATION

Tilak Maharashtra Vidyapeeth, Pune

Bachelors of Computer Applications

2022-2025

PROJECTS

React NEWS APP

- Developed a dynamic news application using **React.js** that fetches and displays **real-time** news articles by integrating the **NewsData.io** API.
- Implemented **filtering** features allowing users to sort news articles by **category** and **language** for a tailored reading experience.
- Secured API integration by managing sensitive API keys with **environment variables**, ensuring application **security** and best practices.
- Enhanced user experience with **responsive** design for seamless functionality across desktop and mobile devices.

Crypto MARK

- Designed and developed a cryptocurrency **tracking** platform using **React.js** to provide real-time updates and insights on cryptocurrency market trends.
- Integrated **external APIs** to fetch live market data, enabling users to **monitor** cryptocurrency prices, market capitalizations, and historical performance.
- Implemented responsive and interactive **UI/UX** design, ensuring a seamless and user-friendly experience across devices, from desktops to smartphones.
- Optimized application performance by efficiently managing API calls and state using tools like **Axios** and **React state** management libraries.
